

MULTI SPORTS FLOORING

MSF PRO

MSF Pro is Australia's most *Elite* and *Professional* Inter-Locking Multi Sports Flooring Solution.

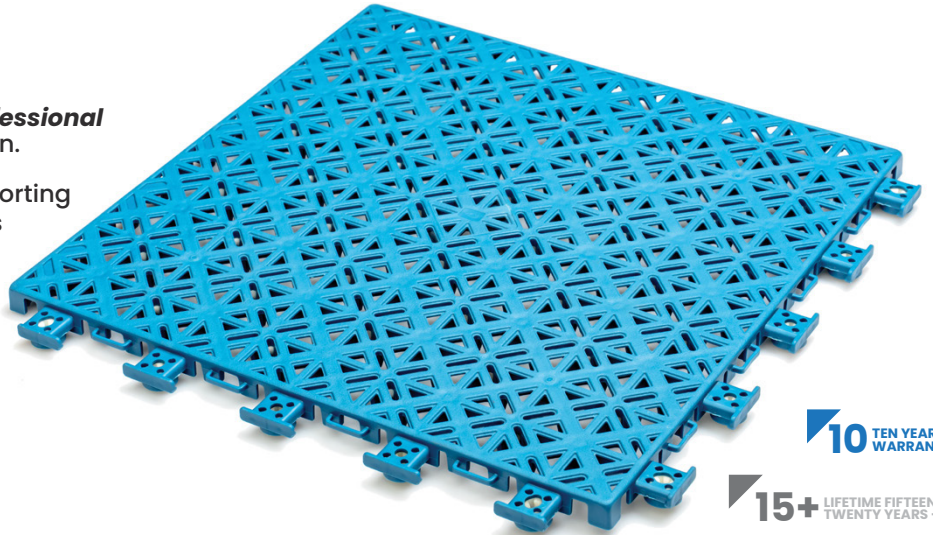

MSF Sports flooring has revolutionised sporting events, schools & backyard courts across Australia for two decades – since 2002.

Tile Specification

305mm x 305mm x 17mm

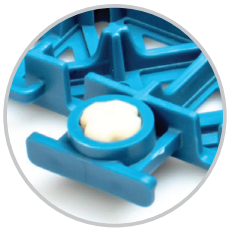

Maximum Shock Absorption Technology

Ball Bounce Rate: >99% (identical to indoor)

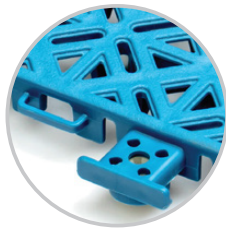

10 TEN YEAR WARRANTY

15+ LIFETIME FIFTEEN TO TWENTY YEARS +

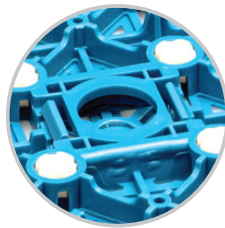

SHOCK ABSORPTION

4-way directional rubber cushions provide superior ball bounce performance. Each tile features 50 x rubber cushions for maximum stability.

EXPANSION JOINTS

To allow for all weather conditions, expansion joints run throughout all tiles. This allows the court to expand without uplifting.

ANTI-THEFT OPTION

While we already secure edges to the concrete, you have the option to secure individual tiles to the concrete base to prevent theft.

ROUNDED CORNERS

Corners are designed with a symmetrical sloping edge, to prevent risk of injury and guarantee ball rebound direction – identical to indoor courts.

MSF BRANDED

MSF Sports has developed MSF Pro flooring since 2002. All our products are branded and have evolved over 18 years.

KEY BENEFITS

- **Drainage System** Prevents puddle hazards

UP TO 8 WEEKS

Yellow / Sun / Orange / Cherry / Sky / Purple

WHAT IS MSF SPORTS FLOORING MADE FROM?

MSF Sports Flooring is a combination of Elastic and Plastic, specifically called Polypropylene (PP). Features include; Water proof, fire retardant (melting point 160°C), UV resistant, anti-skidding, moisture resistant and non-fading. Polypropylene is a highly versatile material that has many beneficial physical properties, and most importantly it is also **recyclable**.
